

# FD #1

## Specifications Drawing Banner Bay Marine FinDelta #1

Make sure the loop opening is large enough for the main halyard shackle. The loop should be angled in the direction of the pull, canted about 20 degrees forward.

1. Cloth: Generally Storm Orange for the fin and white 6 oz. for the wings.
2. Corner grommets: #5 for the front tip of fin, and rear of wings.
3. Green starboard wing, and red port wing reinforcement webbing (using colors optional).
4. Fin Drop: 1.5 inches / 3.8 cm. The concave effect helps flatten the wings and fin.
